# WHO IS SUPERFORMANCE

- Superformance LLC is the largest 1960's continuation and reproduction distributor in the world today.
- Superformance LLC in partnership with Hi-Tech Automotive RSA has over 20 years in the reproduction and continuation business producing over 4000 Complete Component Chassis to date.
- Superformance Complete Component Chassis are manufactured in a 400,000 square foot state of the art facility that employs over 600 highly skilled craftsman.
- Superformance has more registered vehicles and satisfied customers on the road today than any other 1960's era reproduction and continuation manufacture.

# WHY SUPERFORMANCE

- OEM Quality Fit And Finish
- Built to OEM specifications
- Limited Manufacture's Warranty
- Consistent Quality Control
- No Donor Car or Parts Required
- All New Engineered & Manufactured Parts
- OEM parts used whenever applicable
- Worlds largest Privately Owned Automobile Construction Facility
- Fully Licensed And Endorsed Products
- Registry And Owners Forums
- Track Tested and Race Proven
- Full Customer Support Program
- Readily Available Replacement Parts

# WHAT IS CONSIDERED COMPLETE?

---

- The Superformance Complete Component Chassis is a “complete turn key minus” requiring only a customer supplied engine and transmission.
- Exteriors are painted, color sanded and polished with the windshield installed, doors fitted, aligned, and functioning correctly.
- Interiors are supplied with leather covered seats, fully carpeted floors and trunk. Fully wired instrumentation, switches, and steering wheel.
- Electronics are completely wired from headlight to taillight including main harness, charging system, ignition system, and fuse box.
- Complete Suspension, Brake System, Tires and Rims.
- The Superformance Complete Component Chassis is so complete that it can be finished and ready to drive in as little as 2 days.

# LICENSED AND ENDORSED PRODUCTS

Superformance has been granted the following licensing & endorsements.

## Licensing Partners:

- Shelby Cobra®, Shelby Daytona Coupe®, and CS-GT40® are all under license with Carroll Shelby Licensing Inc.
- GT40® is an “authorized continuation” and is under license with Safir GT40 Spares LLC.
- Corvette Grand Sport, in partnership with Duntov Motor Company; licensed by General Motors.

## Endorsed Products:

- Exclusive distribution of the “Foose™ Coupe” deigned by Chip Foose of Foose Designs
- Roush Edition “MKIII-R”

# Corvette Grand Sport

## THE CORVETTE® GRAND SPORT HISTORY

- In 1962, with the blessing of Chevrolet's® senior management, Zora Arkus-Duntov initiated a program to create a competitive road racer based on the newly designed Corvette® C-2 Stingray™.
- Duntov's objective was to use the element of surprise to unleash 125 high horsepower, superior handling race cars to the international road racing community. He based his racer on the footprint of a street capable/legal car.
- The Grand Sport racer eventually qualified as a GT production car within the realms governing international rules and regulations. However, on hearing of Duntov's plan to make the racer available to independent road racers, albeit without the official G.M. endorsement, G.M. executives stopped the program with immediate effect.
- At this point in time, only 5 corvettes had been completed. General Motors instructed Duntov to destroy all the prototypes. However, miraculously, all the prototypes escaped destruction. Elusively, these rare Grand Sports were to establish their place in automobile racing history, via responsible and passionate private racers. The heritage of the Grand Sport was thereby preserved for future generations.

# Corvette Grand Sport

## PRESENTLY

- The original Grand Sports are all privately owned or held within private collections. These racers are extremely high in value and are jealously coveted. Their value is determined by an element of mystique, the mystery of the unknown... Had this rarity been tested, who knows what might have been?
- The opportunity to own and share in the GRAND SPORT experience is now finally within your grasp... Exclusively licensed by General Motors, SUPERFORMANCE and Duntov Motor Company have painstakingly reproduced the chassis, body parts and all accessories needed to reproduce this extraordinary car.
- YES... The SUPERFORMANCE CORVETTE® GRAND SPORT coupe or roadster can now be yours. This spectacular dream street car will be offered as a complete TKM [turn key minus] unit, awaiting your personal choice of engine and transmission. Technical originality will be observed with discipline and precision.
- OWN AND EXPERIENCE THE DREAM TODAY...

# Corvette Grand Sport

## CONSTRUCTION

- Factory built and assembled by one of the world's largest specialty car manufacturers, you will be assured of the same quality, continuity and attention to detail offered in every Superformance product.
- Original fiberglass and composite material fabricated body parts allowing for weight reduction
- Tubular steel frame construction
- Chassis situated on 15" X 8" front and 15" X 10" rear knock off wheels and tires.
- Original interior ... Featuring custom upholstered seats, interior carpeting, lap type seat belts, a period correct steering wheel and original style shifter.

## EXCLUSIONS

- **engine, transmission, or driveshaft.**

# 2010 Corvette Grand Sport

The 2010 Corvette Grand Sport will carry on the legacy and history established long ago with the initial release of the Corvette Grand Sport.

G.M. will offer both a coupe and convertible version of their street car.

Just as General Motors Continues to relive their heritage with this new release, Superformance relives the history with the release of the 1963 Corvette Grand Sport.

2009 is a amazing year for Corvette enthusiasts.

# WHY BUILD THE 1963 CORVETTE GRAND SPORT?

---

- Only 5 original Corvettes Grand Sports were ever built – Today we receive countless inquiries requesting Superformance to build a 1963 Corvette Grand Sport.
- Now, with our exclusive GM license in partnership with Duntov Motor Company and the support and direction of Racing Icons, Superformance has the skill to accurately build the Grand Sport as well as the ability to properly represent the brand name.
- A proper continuation series helps support brand recognition, brand loyalty, and honor the historical significance of Chevrolet and the Corvette Grand Sport legacy.

# THE GOAL

- Our goal is to recreate the magic in the form of both a street and race version 1963 Corvette Grand Sport. With the guidance of General Motors and General Motors Performance Parts we will build an accurate continuation and bring back the excitement and competitive adrenalin that pumps thru the veins of all red blooded Americans.
- What draws a crowd better than an American Muscle Car in race trim and or appearance? Everyone flocks to take a look. Some reflect memories, some dream of the future, some get chill's listening to the thunderous sound of the raw horse power and some just admire the sheer beauty and strength it emits. No one can claim that the presence of a classic American Muscle Car will not draw a crowd, a feat that our overseas competition can not replicate nor utilize in their new car sales programs.
- We at Superformance working with EMI, GM, GMPP and Duntov Motor Company will create an accurate continuation Corvette Grand Sport.
